Course Information

As a reminder, your home institution determines whether and how courses completed at MADE are accepted as well as how they may impact your degree requirements, GPA, class standing, etc. We encourage you to meet with the study abroad office at your home institution as well as your academic advisor to review your institution's unique policies.

We encourage you to hold onto syllabi, assignments, and exams until your credits have been processed by your home institution.

MADE utilizes the European Credit Transfer System (ECTS). In most cases, ECTS are converted to US semester credits by dividing the number of ECTS by 2. For example, a course worth 6 ECTS is most often worth 3 US semester credits.

In order to maintain full-time student status with your home institution, you must be registered for at least 12 US credits per semester.

Upon program completion, MADE will process your grades and issue a transcript to your home institution. Please note that this may take up to 90 days after your program end date and you must not have any outstanding fees.
